SENATE. WASHINGTON, March 16 .- Senator Elmunds introduced a bill to fix a day for the meeting of the Electors of President and Vice President, and to provide for and regulate the counting of votes for President and Vice President and the decision of the questions arising thereon. In doing so he said for more than a year, now, there has existed a large select committee of this body charged with the duty of considering this and other cognate subjects. So far as I know that committee has had no meeting, and I have waited, being in the minority in this body, in the hope that some gentleman in the majority wou d move in what I consider to be this most important business, but as no movement has been made I feel it my duty to ask consent to introduce this

RICHMOND, March 16 .- The heavy rains in the past few days have swollen all the tributaries of James river above here, and a serious flood is feared. The merchants in the lower part of the city are removing their goods to places of safety. The rain to-night is falling in torrents, accompanied by lightning. Telegrams from Lynchburg report that the river there has risen about six feet and is still rising rapidly. Rivanua river, at Charlottesville, is reported up several feet and rising rapidly.

NASHVILLE, March 16 .- The steamer Bransford arrived from above to-night. Captain Armstrong says the entire low lands for two hundred miles up the river is flooded. He also reports that a rise is coming down which will swell the river nere to at least 47 feet. The Tennessee river is out of its banks at Decatur and Johnsonville.

MOBILE, Ala., March 16.-Special dispatches to the Register from Rome and Selma says there are overflows of water all around them, and that both towns are seriously threatened. It is expected that before many hours the vater will reach Selma, and indications point to a worse overflow than those of 1871 and 1875. At Rome the water has reached the battery room of the Western Union Telegraph office, and is still rising.

MONTGOMERY, March 16.-The rains of the past five days have been very heavy, and the Alabama river has over-flowed its banks. There are no reports of damage to any of the railroads cen-tering here. It is now growing cold.

KEARNEY GONE. SAN FRANCISCO, March 16.-The Police Judge this morning sentenced Dennis Kearney to six months' imprisonment in the house of correction, and is to pay a fine of one thousand dollars. The severity of the sentence was a surprise to Kearney, who bad expected to get off with a nominal pun-ishment. It is probable that he will - take the case to the Supreme Court on a habeas corpus.

PROTECTION TO JEWS.

MADRID, March 16,-England, France Germany, Italy, Belgium, Portugal and the United States have agreed to the proposal of Spain for a conference to be held in Madrid to arrange with the envoy of Morrocco rules relating to the protection by foreign affairs of Jews and other subjects of the Sultan.

violation of one of the ordinances of the town of Hendersonville prohibi-ing the sale of intoxicating liquors; implying that there was more than one ordinance of the town on that subject. The proceedings under which defendant was arrested is defective in form

and substance, and does not warrant the judgment pronounced upon him.

This was not a criminal action because it was not brought in the name of the State, and cannot be sustained as a civil action, because it is not in form a summons and does not require the defendant to answer the plaintiff for a debt. A judgment and decree of a court of competent jurisdiction are conclusive as to everything passed upon and ad-judged therein, and gives the right to have process to execute the same. A judgment finding that lands were

subject to a lien acquired in 1866 and still existing, and ordering them to be sold for the exoneration of a plaintiff, is a judgment not for a debt against which the homestead may be claimed but a judgment in rem, affecting the lands themselves directly, and one who was a party to that suit is concluded, and he cannot now collaterally attack the legal propriety of that judgment on the trial of the action, or claim the res as exempt, which might have been

By the confirmation of a sale, heirs selling through the agency of the court, have a right to have a specific execu-tion, by payment of the purchase money on the part of the purchasers, and are themselves under obligation to perform their part of the contract, by executing title simultaneously or having it done through a commissioner

appointed for that purpose.

When a wife is heir, her share is in law realty to be invested and settled under order of the Court, so as to be secure unto her or her real representa-tives. The act of a husband in receiving the note of the purchasers and consenting to an entry of a credit on their bond to the Clerk and Master, is beyond his power, and amounts to nothing as a payment on the purchase money and leaves the purchaser liable, as before, to pay the purchase money before he is in a posi-

SPECIAL REPORT OF PRESIDENT WILSON.

Another Address to the Governor-Information on the Sale of the W. N. C. Rail Road, Etc.

PRESIDENT'S OFFICE, Morganton, March 8th, 1880. To His Excellency, THOS. J. JARVIS,

DEAR SIR-I have the honor to acknowledge your favor of the 5th inst., in which you say:

"I desire to place before the Legislature, when it assembles, the fullest and most accurate information as to the condition of the Western N. C. Railroad, so that the members may know all about the property with which they will have to deal. For this purpose I herewith send you a series of questions which I wish you to answer in detail

and as fully as possible. "Of course, through your regular quarterly reports made to this office, and by actual inspection of the road as you know, I am already in possession of much of the information asked for, but it is not in a convenient shape to lay before the General Assembly, and I therefore ask for this special report I will thank you to return your answers as soon as convenient, together with any other suggestions or information you may have, not embraced in

these questions"
In accordance with your request, I herewith append my answer to each of your questions, first repeating the ques-

tion for convenience.

1st. What is the length of the road from Salisbury to Asheville by actual aurvey? Answer, 145 miles, 2d. How many miles of that part of

Auswer, 138 miles. 3d. How much of the track on this part of the road was laid before the war? How much since the war and prior to 1865, and how much since 1875?

Answer. Before the war 71 miles were laid, during the war 7 miles, with old fron, after the war and prior to 1875, 36 miles, reaching Old Fort, and since 1875, 24 miles additional, extend-

the road is completed and now in ope-

ing to the present terminus, 7 miles west of Asheville.
4th. Of that laid before the war, what amount of new rails will be necessary in the next two years to replace the old and worn rails?

Answer. The entire track from Morganton east, a distance of 80 miles, has been in use from 20 to 23 years, and must necessarily be greatly worn, be-sides being laid with the old chairs now out of use. If the company had the means it would be desirable to relay it all, but perfect safety would not require, during the next two years, an outlay for more than 20 miles.

5th. What is the condition of the road bed, including cross-ties, ditching, &c., and what amount will be needed in the next two years to put the same in good repair? Here state what amount of cross-ties has been put in and what amount of ditching done in the last two ears on what is known as the old part of the road, with any explanations you may desire to make.

Answer. During the last two years 95,000 cross-ties have been replaced, fully as many more are now needed. No ballasting has ever been done on the road, and for several years but lit-tle ditching, from the fact that we had no engine for this purpose and no means to pay a ditching force, and at the same time supply tools and material for the convicts engaged on construc-tion. From worn iron and for want of proper ditching the road-bed is not in condition to ensure both safety and

dispatch.
6th. What amount of money, if any, would be needed for the repairs of the bridges in the next two years? Ans. A sheet iron cover for the bridge over the Catawba at a cost of \$2,000 would be all that is absolutely re-

quired.
7th. Give the condition of the depots and buildings and what amount will be needed, if any, in the next two years to put them in good repair, with any remarks you desire?

Ans. All in fair condition; no repairs of importance needed. Sth. Have you a sufficiency of shops and tools for the wants of the company? What is their condition and what will

be the probable cost of any addition thereto, in the next two years? Ans. Our shops have been recently rebuilt at a considerable expense, and are ample for present purposes, but we are greatly deficient in machinery. An

outly of \$3,000 is as little as can possi-bly serve our immediate wants. 9th. How many locomotives have you on the road, and what is their con-

dition and size?

Ans. We have six locomotives—one large freight engine new, another old one with new boiler, in good condition, just purchased from the R. & D. railroad, and not paid for, and four others. which have been in use about 23 years, and now requiring new boilers and other repairs, amounting to about \$2,-500 each.

10th. How many passenger, baggage, express and mail cars, and their condi-tion? How many box and flat cars, and their condition?

11th. What additional locomotives and rolling stock will be necessary in the next two years for the business of the company, and the probable cost of

Ans. We have three coaches, three 2d class cars, two mail cars, fourteen box cars and thirteen flats in condition. This number was not sufficient for the business of the road, but the Richmond & Danville road kindly let us have the use of seven box cars and two flats, and the Raleigh & Augusta Air-Line and Carolina Central allow their cars to go over the road free of charge. The immediate wants of the company require the purchase of two engines at a cost of \$18,000, and near double our present number of freight cars at a cost of about \$12,000, to enable us to tannsact our business without asking favors from

other corporations.

12th. What is the length of incompleted road to Asheville and the cost of its construction? Ans. Three miles of grading is yet to

be doue, the cost with labor furnished, cannot exceed \$5.00.

13th. What is the distance by actual survey from Asheville to Paint Rock, and what will be the cost of constructing and equipping that part of the

Ans. The distance from Asheville to Paint Rock is 45 miles; the original estimate on this line was \$968,000, about one-third of the grading has been done, and the estimate for engineering and contingencies was extravagant. I regard \$650,000 as a fair amount for the

completion and equipping of this line. 14th. What length of time to complete the same under existing laws?
Ans. Under existing laws, \$70,000 is yearly aperopriated for the purchase of iron, chairs, spikes and superstructure; eight thousand dollars per mile will be required for this purpose at present prices, so that only nine miles each year can be finished. The present legyear can be finished. The present legislation, in addition, provides that this appropriation shall be equally divided leigh, N.C.

between the Paint Rock and Ducktown lines, thereby finishing 4½ miles per annum on each, the Paint Rock line (45 miles) will require ten years to complete.

15th. What is the distance by actual survey from Asheville to Ducktown, and what will be the ost of construction and equipping this part of the road? Ans. The distance from Asheville to

Ducktown is 1351 miles, and the estimated cost is \$5,330,000.

16th. What length of time will it require to complete the same under existing laws?

Ans. The use of the \$70,000, divided as above, would complete the Duck-town line in 19 years. But the present legislature ascertaining that the earnlegislature ascertaining that the earnings of the road were not sufficient to employ 500 convicts, and at the same time keep in good condition the finished portion, enacted that \$20,000 of the appropriation might be applied to purposes of construction. If this provision is adopted 15 years would be required to complete to Paint Rock, and 30 years to Ducktown.

17th. What were the gross earnings of the company for the year 1879?

of the company for the year 1879? Ans. \$82,422.37.
18th. What were the operating expenses for the same period? Ans. \$50,264.87

19th. What were the net earnings of he company for the same period, and to what purposes were they applied? Ans. The net earnings were \$22,157. and were expended for purposes of

construction. 20th. What is the indebtedness of the company, if any, outside of the \$850,-000 mortgage bonds, and why, and for

what purpose contracted?

Ans. When the present administration took charge of the road there was a floating debt of about \$20,000, made for the extension of the work. Our earnings we were forced to use in the construction of the road instead of liquidating this debt; we had also to buy two locomotives and three coaches and to build one new coach, which is about completed, and rebuild the shops, thereby increasing our floating debt to \$30,000, which amount is due to employees of the company for work and labor done, for the purchase of ties and other material, and to the R. & D. Railroad for purchase of engine.

The road having about reached Ashe

ille, for the further progress of the work we are confronted with these facts and figures, which candor and a proper sense of public duty require me to again refer to: The floating debt is, Two engines now required, -Rolling stock now required, -Repairing old engines, Machinery for shops, - - Covering of Catawba bridge, -100,000 cross ties, 20 miles new iron. 160,000 50 hands ditching 2 years,

Less worth of old rail. - -

To meet this requirement and to build read estimated to cost \$5,980,000, we have yearly earnings amounting \$22,177 and an appropriation of \$70,000 per annum. I am, however, of the opinion that our net earnings will be very greatly increased as soon as the connection is made at Paint Rock. By a mortgage upon the completed part of the line to Paint Rock could be finished and a few miles in the direction of Ducktown, but any attempt to mortgage the right of way beyond this could result, even with any increased earnings we are likely to have, only in fail-ure and a sale of the road with no guarantee for its completion.

My answers to your inquiries have, I believe, given all the information pos-sessed by me, which would aid the General Assembly in determining what is best to be done in regard to the property the State holds in the Western North Carolina Railroad. Should anything have been omitted, it will afford me pleasure, at any time, to furnish it. I have the honor to be,

As these appropriations were made, and expenses paid, from time to time, they have had the effect of increasing the deficiency each year since 1877 ir-

clusive.

Another cause exists in the reduction of five and two-third cents in the rates of taxation on property. This was done upon the supposition that the re-assessment in the year 1879 would largely increase the valuation of property. But the increase of about \$16,000,000, by the re-assessment, was over-balanced by the reduction of the per centage of tax, as the receipt from the revenue act of 1879 are \$54,000 less than the amount raised by the revenue act of the pre-

vious year. Again, the General Assembly of 1879, greatly to its credit, as I believe, provided for a compromise of the just debt of the State, and appropriated the tax on incomes, merchants, and three-fourths of the taxes on purchases of liquors, to pay the interest on the new dept. These taxes for the years 1879 and 1480, collected and estimated, will amount to about \$99,000, and will have to be taken from the public fund. With these statement of facts, you can readily perceive why the Treasury is unable to pay large and repeated appropriations, without an increase of

The funds in the Treasury, and estimated receipts for the year, applicable to this, amount to \$243,099,72, showing

deficiency of \$96,675.28. The moneys

in the Treasury and estimated receipts do not include the funds set apart for

the payment of the interest on the pub-lic debt, or the funds of the Agricul-

tural Department.

The appropriations and estimate of expenses do not, as you perceive, include the appropriation of \$70,000 for the Western North Carolina Railroad;

and in the \$75,000 for the Penitentiary

are included the \$41,000 for the support

of convicts on the Western North Caro-

In the event of a sale of this road on the terms already proposed, the reduction in these estimates and appropriations will be \$75,708.33, exclusive, as

you will see, of the \$70,000 appropriated for the road, leaving a deficiency of \$20,966.95, to which add \$60,000 for the Cape Fear and Yadkin Valley Railroad, and the deficiency will be \$70,966.95. If a sale of the road is not made, the deficiency will be \$70,966.95.

requiring a per centage of at least 10 cents on property to provide for it.

In response to your second enquiry, I state the causes of the deficiency.

On the 30th of September, 1876, there was a balance in the Treasury of \$108,-

taxes, paid from the pub-lie fund, Add to this the expenses, for the same time, in conveying convicts to the Penitentiary,

Total expenses on account of the Penitentiary and transportation of convicts paid from public fund, without special tax, \$ 328,765 6

Finding it necessary, in explanation of the deficiencies and the unusually large payments from the public fund, to refer to the Penitentiary, I called on Mr. William J. Hicks, Architect and Warden, for information concerning that institution, the nature of which is explained in his reply, herewith transmitted as a part of this communication. It is but just to say that I have frequently visited the Penitentiary and found the work progressing rapidly, and, as far as I could perceive, very satisfactorily. satisfactorily:

N. C. STATE PENITENTIARY, Raleigh, N. C., March 11, 1880. HON. J. M. WORTH, State Treasurer, DEAR SIR: In compliance with your equest, I beg leave to submit the fol

owing statement:
To complete the prison buildings (except administration building) will cost, in cash, about eighty-one thousand five hundred and eighty-seven and 99-100 dollars (\$81,587.99). In this statement the value of convict labor, and support of same, are not considered. To complete the administration building would cost, in cash. about twenty-

five thousand eight hundred and seven-ty-three dollars (\$25,873.00,) which would make a total cost to complete all of the prison buildings of \$107,460.99, and would require about three years to complete the entire work. There have been expended for building purposes, since the commencement of the prison, to January 1st, 1880, the

following sums: For temporary buildings, stockade, penitentiary site, &c. For permanent prison buildings, For exterior wall,

43,800 19

\$339,670 72 From this statement it will be seen that the temporary building depart-ment has cost nearly one-half as much as has been expended on permanent buildings. Many of those temporary buildings are now decaying very rapidly, and will very soon have to be replaced with others unless the permanent buildings are completed so that they may be occupied. Therefore I do most respectfully but earnestly recommend that such an appropriation be made as will enable an economical and vigorous prosecution of this great work to an early completion, and then the convicts may very soon be made to industry of the State may be relieved from the great burden of taxation they now have to bear on account of their

criminal population. Yours, very respectfully, W. J. Hicks, Architect and Warden. As a further reference to the new debt, I am gratified to say that, under the compromise act of the last General Assembly, \$5,671,745.00 of the old bonds have been surrendered, and \$1,-630,606.25 of the new four per cent. bonds issued in exchange. I feel condent that all of the \$12,000,000 provided for in the act will be exchanged during

the future, postponed until January, which made it necessary to provide for fifteen months, instead of twelve, out of the receipts of the year 1877, and this absorbed the whole of the \$180,000 of supposed surplus, before these special the present year.
On account of deficiencies in former appropriations were made.

The General Assembly of 1879 made appropriations, although there may be a sale of the Western North Carolina appropriations from the general fund tollows: Railroad, the rates of taxation in the present revenue act cannot be reduced; and in the event of a sale, the interest on the new debt can be paid without an

increase of taxation.

I remark, in conclusion, that the representatives in the last two General Assemblies have shown a disposition to cut the State loose from all connection with railroads, and an equally strong disposition to make the Penitentiary self-sustaining as far as possi-ble. I fully sympathize with this feel-ing, and am satisfied that it will receive the indorsement of the people of the State. Nearly all of the States of the Union have disposed of their property interest in railroads, and in nearly all, the penitentiaries are self-sustaining.

North Carolina can do the same. I have shown in a recent communication to you, advising the extra session of the General Assembly, the great financial losses sustained by the State in railroads and other public works. In this communication I have shown the cost of the Penitentiary, and support of convicts, from its commencement. The facts then and now presented commend themselves to the attention of the representatives of the people. Very respectfully,
J. M. WORTH,

Slavery in China

Speaker Randall laid before the House of Representatives on Friday State De-partment papers relative to slavery in China, showing that under a recent decision in Hong Kong, to buy, sell or detain a man, woman or child as a slave or as property is contrary to the laws of Figland, which law is imported into and forms the substance of the law of Hong Kong; that in 1845 there were 10,-000 slaves in Hong Kong, and that though the British government had notified the colony that slavery must be abolished, slavery exists in Hong Kong to the present day. A memorial signed by more than 10,000 of the Chinese gentry, merchants and others of Hong Kong, is among the documents submitted, praying that the British laws relating to the slave trade be not

WHOLESALE FORGERY.

THE CONFESSION MADE BY TWO MEN.

A Well-Known Virginian's Forgeries

Running Over Two Years -- Promising to pay his Creditors in Time. Special Correspondence to the News,

RICHMOND, March 16 .- This community was startled yesterday morning as announced through the telegrams to your paper by the public announcement that Dr. Luther R. Dickinson, editor and proprieter of the Planter and Farmer Magazine, and a prominent citizen of Richmond, has been engaged for two years past in a systematic course of forgeries, using the forged indorsations of Messrs. Jeter & Dickinson, proprietors of the Religious Herald, to negotiate notes of his which he offered for discount at various banking institutions in this city or sold to note brokers. He has also for some time past orged the indorsations of Rev. Dr. George B. Taylor, Baptist missionary to Rome, Itaty, and Rev. Charles E. Tayer, Professor in Wake Forest College, North Carolina, both of whom are his brothers-in-law. The fact that he was a a brother of Rev. Dr. A. E. he was a a brother of Rev. Dr. A. E. Dickerson, the junior member of the firm of Jeter & Dickerson, and was otherwise so highly connected, dispelled all suspicions of the genuineneness of the signatures forged, and he might have continued his criminal operations for a long time to come but for the recent death of Rev. Dr. J. B. Jeter, the senication of the firm of Leter & Dickers. or member of the firm of Jeter & Dick-inson, which event rendered impossible the further use of the firm name in negotiating loans to meet the forged notes rapidly maturing. The settling up of the affairs of Dr. Jeter, deceased, led to the discovery of the forgeries. The forger, finding that the disclosure of his many crimes was about to be made, left the city last Tuesday, estensibly on business, since when he has not been heard from. He left the following letter;

MARCH 11. I desire to make to my friends and creditors a frank confession of my sin and folly in fraudulently using the name and credit of others in the vain hope of extricating myself from embarrassments caused by the bad manage-ment of my affairs. Compelled to flee from my home, utterly penniless, I solemnly declare my purpose to devote the balance of my life to the payment of my every indebtedness, and invoke a charitable judgment and treatment on the part of all concerned.

R. L. DICKINSON. An investigation into the forgeries shows that they will aggregate \$28,000 or more.

EDMUNDS ON THE ELECTORAL BILL. WASHINGTON, March 16.-In explaining the bill to regulate the counting of votes for President and Vice-President, introduced in the Senate by Mr. Edintroduced in the Senate by Mr. Edmunds to-day, the latter said: "The bill that passed the Senate at the last session of last Congress on this subject embraced various provisions as to the time of holding the Presidential election, for electors in States, and various provisions for better regulating the law in cases of vacancy both of President and Vice-President and so on. A provision states in respect to providing means by States in respect to providing means of determining controversies in these States respecting the choice of electors. Time has so run that of course any provision of that kind that would apply to the next election would be entirely useless. In consequence of that I have taken that bill and modified it to the simple proposition of provining that the meeting of electors shall be on the second Monday of January instead of the second Wednesday in December. I have also modified it so as to give time for such States as have any exist-ing laws adequate to the purpose to determine for themselves and according to the Constitution, which I believe they have the sole right to do, who their electors are. This bill therefore makes a simple provision for State disposition of any controversy under such laws as it may have in existence prior to the date of choosing electors. It provides for a later meeting of elec-tors in order that each State may dispose of any controversy that may arise, and then provides, as the bill of last session did, for the meeting of the two Houses and proceeding in conformity with decisions reached in the

respective States in any case of dis-The bill was referred to the select committee on Presidential election.

GEO. C JORDAN, Editor and Propr ALE OF THE W. N. C. RAILROAD RUMORED RADICAL PRO-

GRAMME.

It came to our knowledge some days ago, and from a source we deemed credible, that it was the intention of tricts of Russia and Hungary, certain leaders of the Republican party to procure one or more propositions for the purchase of the Western N. C. Assembly, which should appear upon their face to be more advantageous to the State than the proposition submitted by Mr. Best. Since then we have heard confirmatory reports of the matter, and we give the rumor for what it is worth, of course without expressing any opinion concerning its accuracy. It is said that these new propositions, while ostensibly fair and honest, are in fact to be made only for a purpose and will be intrinsically spurious. That the Republican party is well aware of the apparent division among the Democrats upon this question, is clear; and they are also well aware of the fact that it will be to them a source of strength if by any means they can secure an adjournment of the present session without action upon the Best proposition. They know that if the contract with Mr. Best is perfected and ratified, and the issue eliminated from the public gaze, with the overburdened tax-payers of the State relieved and the people of the transmontane section assured of speedy railroad facilities, that the Democratic party will enter the campaign of 1880, so unquestionably invincible that any opposition they can make will be more than futile, and hence the rumor that it is their purpose to hinder and delay and if possible to prevent action at its's. If they can procure other offers to be made whether bogus or not it matters not so far as the anticipated effect is concerned, references to committees, investigations and reports, with all the delays incident to legislative action, the chances are that the twenty days session will slip away and nothing be done.

We trust that the rumors which are afloat are without foundation. This question of the sale of it's road is not a party question and one in the discussion of which any considerations purely political should enter. It is a simple business matter, but it may be that the Republicans will try to give it a partisan direction in a quiet way, those who have the matter in charge, if the reports are true, are no tyros at partisan jugglery, Whatever they cause to be done will come cloaked through agencies appearantly trust-worthy, and it may be assumed that they know and appreciate the stake for which they are playing.

We say certain leaders of the Republican party are reported to be engineering its movement. It is rumored that they find it difficult to whip into the party traces all the Republicans in the General Assembly. That some are found who do not believe in such methods and who places the good of the State and the welfare of her people over and above any such narrow partisan trickery. We belive that there are many such in the Legislature.

But it is upon the Democratic party, who have a controlling power in the matter, that the responsibility mainly rests, and, in a party sense, wholly rests. We trust that they will be vigilant and watchful. We ask them not to blindly and unwittingly play into the hands of their wily opponents-to let no seductive but illusive proposals -no smooth and oily suggestions-no deceptive offers-no Radical tricks and artifices, prevent them from getting rid of this elephantine incubus of a Western North Carolina Railroad at this session. It is a duty, for the non-performance of which the Democrats (not the Republicans) will be held responsible. If the rumored Republican programmeshall succeed-if hesitation and timidity and fear shall delay action-if the General Assembly shall adjourn without meeting the popular demand in this matter by consummating and concluding a contract a sale of this road. We will enter the campaign of this year divided and weakened, and with the load of a neglected duty weighting the loins of the party.

We have deemed it our duty as a public journal to call attention to the above rumors. We hope, that if the future course of the Republicans shall demonstrate their correctness, to be able to inform our readers that they avoided nothing to prevent a satisfactory sale of the Western North Carolina Railroad,

THREE notable cases of dishonesty and breach of trust have been reported in the dispatches this week, and from points as distant from each other as Boston, Richmond and New Orleans. In the Richmond case a man of high standing in the Church and his community has been carrying on systematic forgery for years, and confessing his "sin and folly" has fled the country, leaving his victims to whistle for the \$28,000 of which he has robbed them. His confession would never have been made probably if the death of one of the several clergymen whose names he had forged had not necessitated the uncovering of the fraud. Such a confession is a mere whine over being caught, and deserves no thanks. The only redeeming feature of the Richmond affair is the noble conduct of the defaulter's brother, a clergyman, in making over his own property to the sufferers by a crime in which he had no part and for which he could not in any way be held responsible. In Boston a son confesses robberies by forgery to the amount of \$130,000, of which his father has been already convicted, and in New Orleans the fraudulent devices by which the officers of a bank have dissipated its assets are exposed. All of these disclosures emphasize the old lesson that in an era when speculation is all the rage all persons charged with the by mail, addressed only to M. A. DAUPHIN, custody of funds should be exposed to as little temptation as possible and held to the strictest accountability, whatever may be the reputation or the pretensions of custodians. They also demand anew that every case of breach of trust be treated by the press, the public and the courts with a severity that will be a warning or weight to all who, under the cloak of respectability, make free with | dle

other people's money.

BLOOD AND SKIN HUMORS.

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Parifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that for out the machinery of life, filling the body with foul corruptions. Taken internally in confunction with the externa application of Cuticura, the Great Skin Ct re, it speedily cares Scrofulous Uters and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm Scald Head, Dandruff, and all itching and Scaly Diseases of the Skin and Scalp. ECZEMAON THE SCALP. BREAST AND LIMBS CURED.

Messrs Weeks & Potter: Guəlemen—I annot refrain from adding my debt of tratitude to you for having placed within my reach the wonderful Cuticura Remebies, which have rendered unnecessary all arther experiment of physicians, and in a emarkably short space of time have rid ne of a loathsome disease. I dispensed with all physicians two years ago, believing hey did me no good. The Cuticura has topped this unsatisfactory expense—even

believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to targe the afflicted to use these wonderful remedies.

PLOWS AND PLOW CASTINGS Wake Forest College, N. C.

For Sale. A Rare Chance for Invest-

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

MY PLUG TOBACCO FACTORY, in a Brick building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

GRAIN MILLS, in a 3 story brick building, 2x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and con complete in quality of flowr ay, and can compete in quality of flour ith any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 Hosse Power Steam Engine, inproved, of the make of Talbott & Sons, Richmond. Attached to the engine is also a 60 Saw Corron Gin and power press, at a safe distance (about 100 feet) in a different lot. The engine has a blick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each, situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 recons buildings of 2 rooms.

TERMS: One-third Cash; balance on reasonable time.

Valuable Lot for Sale. On Monday, February 16th, 1880, at 12 m., I will sell at the Court House door in Raleigh the lot of land recently occupied by George Scales in the north-ern portion of the city of Raleigh. The lot fronts 52½ feet on Polk Street and runs back northward 210 feet, lies to the eastward of and adjoins, the lot of Major J. C. Winder. Contains a acre and has a good dwelling house and scable on it. Sale made under judgment of Wake Superior Court.

Terms Cash.

Who Is Mrs. Winslow?

As this question is frequently asked we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as far as a female Physician and nurse. principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has com-pounded a Soothing Syrup, for children teething. It operates like magic-giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sinerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Senator Davidson, of Buncombe:
A bill to amend chapter 82, laws of A bill to amend chapter 22, laws of 1879, entitled, "an act to provide for keeping in repair the public roads of this State." Placed on the calendar. Senator Leach, of Madison: A bill to provide for the sale of the Western North Carolina Railroad to W. J. Best and associates, and for other purposes. Referred to the Joint Select Committee. for the consideration of bills and papers

in reference to this subject.
Senator Dancy, of Edgecombe: A bill authorize the Board of Education of Edgecombe county to pay certain school claims. Referred to the Committee on Education. Senator Williamson, of Caswell: A

oill to repeal chapter 142, laws of 1879, which purported to abolish private seals, and to provide a sort form of deed. This bill was read at length, and after some discussion was, under suspension of the rules, put upon its second and third readings and passed. The Senate branch of the Joint Select Committee, for the consideration of all matters connected with the sale of the Western North Carolina Railroad, was announced as follows: Senators Leach, Davidson, Ewrin, Dorth, Everett, Gra-ham, of Lincoln, Mebane, Bryan, of Pender, White and Graham, of Mont-

gomery. Senate Resolution No. 1, introduced by the Senator from Forsythe yester-day, in relation to an investigation of the reasons of the failure of the school bill, passed at the last session, being signed by the Speakers of both Houses, was taken up and discussed at con-siderable length by Senators Everett, Davidson, Leach, and President Robinson; Senator Graham, of Lincoln, in

A message was here received from the Governor. The previous question being called,

it was carried. Mr. Lockhart, of Anson, introduced a resolutiod providing that no legisla-tion should be gone into subsequent to the passage and disposal of the Railroad

matters. Previous question, being called, was adopted.

Mr. Atkinson, of Buncombe, spoke upon the subject, and was anxious to go home; but if anything of a nature that absolutely required immediate legislation should come up, as for instance, the Buncombe road law, or the State road law as operative in Run. State road law as operative in Buncombe, he was willing to stay, even a his own expense, until such business was gone through with. A general discussion then occurred

on the question of going into general Mr. York, of Wilkes, next offere ! an amendment to Mr. Lockhart's substitute. This amendment adds, "and other Railroad or Roads in which the

Don't Give Up. What if you have tried different "put up" medicines in vain. Have you not been equally disappointed in some phy-sicians? Do not consider your case incurable until you have made a thorough trial of Dr. Pierce's Family Medicines. They are chemically pure, of uniform strength, and have come into general use by reason of superior merit. In cases of general and nervous debility, consumption, bronchitis, dyspepsia, liver complaint, scrofulous bunches, ulcers and eruptions, the Golden Medical Discovery is a speedy and positive cure; while thousands of women, who had for years been bed-ridden, have, by the use of Dr. Pierce's Favorite Prescription, been restored to perfect health. The introduction of these two remedies has revolutionized the treatnent of chronic diseases. Patients are no longer depicted and salivated, as the tonic and alterative properties of the Discovery long since demonstrated a better way. Ladies need no longer submit to the use of the caustic and knite, as the Favorite Prescription is guaranteed to cure the diseases and weaknesses peculiar to women. Samuel M. Kemper, of Gallandet, Ind., writes, "Your Favorite Prescription and Pleasant Purgative Pellets have saved my life."
